SUMMARY

Hi, I'm Phuc. I'm a software engineering student at Hulfit. I'm a Frontend Developer. The work revolves around Software Development. In a normal way, I want to turn my ideas into reality. I wanted to challenge myself to see how far I could go in this really harsh environment. I am aiming to become a Fullstack Developer. I am not a good and experienced person. I know that so I will try to keep up with those who are better than me.

PROJECTS & ACTIVITIES

React - Modern Portfolio

2025 -

Front-end Developer

Personal Portfolio

This is my portfolio where I show my skills, projects. Using React, Tailwindcss and animation with Framer Motion without AI. This is a modern portfolio with responsive. I used Toaster to make popup notification and Web3Forms to get and send recruitment information to my personal email if the employer finds me suitable for them.

Role: Frontend Developer

Tech: ReactJS, Tailwindcss, Framer Motion, Toaster, Web3Forms

Deployment: Vercel

Agency - Master

2025 -

Front-end Developer

Agency System Web App (Mini Version)

A project about Agency where client can find and contact with suitable Agency. It's look like Upwork, Fiverr... I created it with knowledge of **ReactJS** and **Taiwindcss** without AI. The interface is friendly and modern. I use **Framer Motion** and **Toaster** for effects and notifications. The project includes a service introduction, company profile, client testimonials, and essential resources—all designed to deliver a professional and user-friendly experience.

Role: Frontend Developer

Tech: ReactJS, Tailwindcss, Framer Motion, Toaster

Deployment: Vercel

Link: <https://react-agency-template.vercel.app/>

Coffee Website – Modern Landing Page

2025 -

Front-end Developer

Coffee Shop(Landing Page)

Landing page with the idea of a coffee shop. I used **HTML, CSS** and **JS** to create this website. Customers can see the products, the story of the shop as well as reviews and comments from customers who have experienced the service here. The interface is user-friendly, suitable for all device sizes (from Mobile to Desktop).

Role: Frontend Developer

Tech: HTML, CSS, JS

Deployment: Vercel

SKILLS

Front-End: HTML, CSS, JavaScript (ES6+), React.js, Next.js, Tailwind CSS

Tools & Workflow: Git/GitHub, VS Code, Vite, NPM/Yarn, Docker, Figma

Programming & Data: Java, C#, Python, MongoDB, ExpressJS.

Soft Skills: Fast Learning, Teamwork, Communication, Debugging, Time Management.

EDUCATION

2021 -

Software Engineering

Ho Chi Minh City University of Foreign Languages – Information Technology (Huflit)

CERTIFICATIONS

2025

Hands On React JS From Beginner to Expert

2025

MongoDB - The Complete MongoDB Developer's Course

2025

Mastering Docker Essentials - Hands-on DevOps
